1 coffee table 660 x 660 mm, **1 cover** for everything and big electric engine hatch

“WE HAVE DEVELOPED A COMPLETELY NEW BOAT BASED ON FJORD’S ORIGINAL DNA. THANKS TO THE NEW HULL WITH HIGHER FREEBOARD, WE HAVE CREATED SIGNIFICANTLY MORE VOLUME IN THE INTERIOR TO MAXIMISE COMFORT AND THE SENSE OF SPACE. THE LARGE HULL WINDOWS PROVIDE PLENTY OF LIGHT AND COMPLEMENT THE ICONIC DESIGN, WHICH IS CROWNED BY THE MIGHTY T-TOP. STURDY ROOF PILLARS ARE INTEGRATED INTO THE TOPSIDES TO COMPLETE THE DESIGN-OPTIMISED INTERACTION OF HULL, SUPERSTRUCTURE AND HELM STATION. IN ADDITION TO MAXIMUM STABILITY, THIS ALSO GUARANTEES THE GREATEST POSSIBLE EASE OF MOVEMENT ON DECK.”

PRODUCT MANAGER ANDREA ZAMBONINI

LOOK AT THE STARS

Sensational liveaboard experience – panoramic view due to the large hull windows

SYSTEM

MYFJORD SAFETY CLOUD

The MyFJORD Safety Cloud enables real-time monitoring of your Fjord: anytime, any-where, simply via the app. Protect your precious yacht remotely, as if you lived on board. You can organise maintenance and service with unprecedented ease. Thanks to the electronic logbook, a smartphone is all you need to share your sailing experiences with others. In short: this system will add a whole new dimension to your sailing passion.*

Sensors

Real-time monitoring of battery levels & devices.

Report Issue

Direct contact to the dealer.

Switch Control

Control of lighting and electrical devices (optional).

Maintenance

Push notifications before due dates for maintenance of all components.

Alerts

Notifications for battery, bilge, shore power, anchor, geo fencing and more.

Manuals

and operating instructions for all units and components on board.

Trips

Electronic logbook with archive and share function for social media platforms.

Insurance

Exclusive in-app offers and conclusion of all insurances around the boat by Pantænus.

SMART SOUND

Brilliant sound meets high-class living

The first impression: brilliant clarity. Even the subtlest acoustic nuances are fully revealed. Four pairs of speakers – three on deck and one for the TV below – overwhelm with an outstandingly rich sound. Pulsating power is the second thing you'll notice. With up to 1,000 Watts of output, the elegantly-built speakers deliver a breakthrough sound that makes the air dance. And thirdly, you'll enjoy the thrill of cutting-edge technology. Control the system wirelessly, with an intuitive and flexible interface. This is the connectivity of the future.

Sunbathing on the foredeck accompanied by relaxing tracks, whilst others party in the cockpit to vibrant beats? Just split the deck into two independent sound areas. Each zone has its own flexible audio options and is intuitively controlled via touchscreen – from the chartplotter or from a smartphone.

Audio Head Unit & Smart Control

A SUPERB TV EXPERIENCE

Immaculate viewing from all angles

The Alphatronics smart TV system as part of the MyFIORD sound theatre was designed especially for maritime needs. An innovative wide-angle LED display (178 degrees, horizontal/vertical) enables you to watch the TV screen unobstructed at every viewing position. Built-in speakers fill the master cabin with an astonishing sound. The tuner and the DVD/Blue-ray player come in a separate unit: For technical updates (based on Android operating systems) just the control box will be exchanged, the TV stays in place.

ALPHATRONICS SMART TV

The super-slim, wide-angle LED display provides an optimum view and blends seamlessly into FIORD's puristic design.
